

Membrane Systems

ISS membrane systems utilize all types of current membrane technologies, as well as advancing a new technology. We select the best membrane for each application. Membrane systems may be used for any or all of the following: pretreatment, process and water applications.

Applications/Industries:

Water

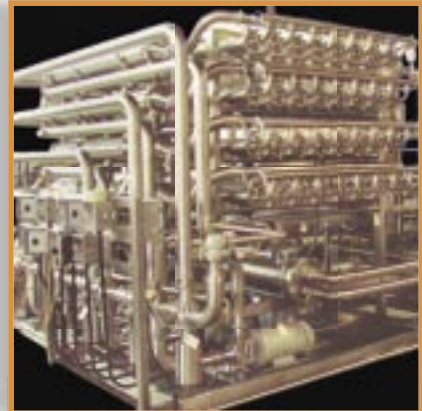

- Sanitary
- High Purity
- Ultrapure

Process

- Food/Beverage
- Sweetener
- Biotech
- Dairy
- Pharmaceutical

Wastewater Recovery

- Agriculture
- Food/Beverage
- Sweetener
- Biotech
- Dairy
- Pharmaceutical

Sanitary Membrane System

Ultrafiltration Membrane System

- Reverse Osmosis (RO)
- Ultrafiltration (UF)
- Microfiltration (MF)
- Nanofiltration (NF)

- Spiral Wound
- Capillary
- Tubular
- Hollow Fiber
- Plate
